NOTES

Physical

The torture took place over 4 days, from the 4th until the 7th of November at Moga. On the 4th of November I was arrested and taken to Moga where I was subjected to beatings, my top was removed and I was struck on my chest and back. 2 people would simultaneously hit me whilst others restrained me and watched. Crocodile clips were placed on my ears and I was also electrocuted.

On 5th of November I was presented in court and remanded to police custody for 5 days, then taken back to the interrogation centre. On the evening of 5th November I was stripped and beaten, ~~followed~~ by I was given electric shocks and legs were pulled apart numerous times. This continued until the 7th of November,

The torture took place intermittently, numerous times each day. Electric shocks were administered by ~~placing crocodile~~ placing the crocodile clips on my ear lobes, nipples and private parts. Multiple shocks were given each day.

My legs were pulled apart 4-5 times each time I was questioned and this took place numerous times each day. After my legs were pulled apart, my legs would be pumped in order to give me temporary relief in order to ask me questions, ~~and~~ which was followed by my legs being pulled again. The electric shocks would also be given at this time.

Each time the act of pulling my legs would take place, the pain would increase. At some stages I was left unable to walk and had to be carried out of the interrogation room. Since then I have had ~~problems~~ problems urinating.

The room in which I was tortured was a plain room next to the main office, where the officers would sit and discuss before taking part and ordering the torture.

3 officers would sit and order the torture whilst others watched and showed obscenities and encouraged further torture. 2 people would stretch my legs, another person would slap and strike me from behind, and the shocks were given by the seated officers.

My family members were also threatened to receive the same treatment and orders were given to arrest my wife and cousin sister whom were initially with me when I was arrested. Threats of taking me to a remote location ~~and~~ where I would be shot dead were also given. At one point petrol was brought into the room and I was threatened with being burnt.

The police forced me to make recordings in which I had to narrate according to what they were telling me to say. Blank papers were also forcibly signed from me and other documents also which I was not allowed to read.
